We also discussed the recent revelations in the newspapers concerning the death of Orlando Letelier. Miller said he was getting inquiries from the public as well as members. Miller was especially interested in the reports concerning Cuban refugee extremists. I told him that [redacted] Deputy Assistant to the Director, was also getting the same requests. I later called Miller and told him that those reports did not "emanate from this Agency." I mentioned that it might be FBI information. Miller said he would like to talk with someone about this, possibly tomorrow.

Miller also mentioned that Chip Pickett, also of the Committee staff, might go along with Senator Hathaway on his trip but that it was doubtful.
